★ ADVANCED COURSEWORK & LEADERSHIP

Psychology: Discovering Personality, [Peterson Academy](#)
10/2023 – 12/2023

Discovering Personality Lecture
by Dr.Jordan.B.Peterson.

AWS Cloud Solution Architect
01/2026 – On Going
AWS Certificate Solution
Architect Certificate

★ TECH STACK

Languages

- Flutter | C++ | Java | Python | R.

Frontend

- HTML | CSS | JavaScript

Backend

- Typescript

Cloud

AWS Cloud, Docker

Database

- Postgres SQL

Data Analysis & Scientific Computing

- NumPy | Pandas | NumPy | SciPy | Statsmodels | Advanced Excel

Data Visualization

- Matplotlib | Seaborn | Plotly | Power Bi (Tableau)

Machine Learning & AI

- Scikit-learn | PyCharm (NLP, Deep learning) | TensorFlow | Keras

with emerging LT'SS data workflows and real-time RNTS integration efforts for faster alerts and smarter interventions.

- Contributed to full-stack automation web dev using Git-Copilot for driv tools, increasing lead engagement by 19%.

Technical support, [Aledrive](#)

09/2024 – 02/2025 | Warsaw, Poland | On-site |

- Technical Troubleshooting: Resolved complex software and hardware issues for a fleet of 50+ crossover vehicles, ensuring 99% uptime for the [Aledrive driver application](#) .
- Onboarding & Training: Conducted technical onboarding for new drivers, facilitating the setup of GPS tracking, in-app messaging, and [automated payment systems](#) .
- Fleet Monitoring: vehicle health and driver safety, reducing "harsh events" (braking/idling) by approximately 15% through proactive alerts.
- Multilingual Support: Provided technical assistance in Amharic & English ,bridging communication gaps for a diverse workforce and maintaining a 95% driver satisfaction rating.
- Cross-functional Collaboration: Liaised with developers to report app bugs and suggest UI/UX improvements based on driver feedback, contributing to a 20% reduction in recurring support tickets.

Founding Engineer, [Janderebaw](#) [↗](#)

04/2022 – 03/2024 | Addis Ababa | Hybrid & part-time |

- Founding member of a non-profit Orthodox church organization that currently serves 300,000 people in the organization with 8 Employees
- Lead the early engineering team on the website and mobile app development
- Personally worked on 40% of the website and cloud database management.
- Engaged in fundraising for the organization to finally help raise >50,000\$ through Crowdfunding

Software Engineer intern | Android App |, [Ozone Technologies](#)

04/2024 – 08/2024 | Addis Ababa | Remote |

- Conductively contributed to 30% of the Mobile app development of Telemed (healthcare consultation appointment booking & med prescribing platform)
- Integrated RESTful APIs to enable dynamic product updates and real-time user interactions, improving loading performance by 40%.
- Led business negotiations with 3 hospitals& 2 pharmacies partners, establishing a 25% profit margin, and contributing to the company's overall market entry strategy

Front-End Developer, [kuraz Tech](#) [↗](#)

02/2024 – 03/2024 | Addis Ababa | Internship |

- Collaborated on front-end development of an e-learning platform targeting university and secondary school students, impacting 2,000+ users.
- Built responsive UIs using Flutter, HTML, CSS, and JavaScript, ensuring cross-device functionality across desktop and mobile.
- Integrated RESTful APIs for dynamic content delivery and course catalog synchronization, reducing manual update time by 50%.
- Applied design consistency using version control and Git best practices, aligning with agile sprint timelines.

Network Marketing expert & Sales manager, [Break through S.C](#)
08/2023 – 10/2023 | Addis Ababa | Onsite |

- Spearheaded digital sales initiatives for healthcare and industrial product imports from China and Singapore, achieving a 34% profit margin in my pioneer function team
